

Participate!

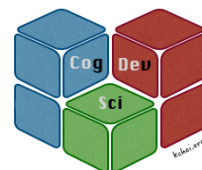

Participants need for mobile learning study!

- We are seeking adults aged 18-25 years or 55-80 years to participate in a study on mobile learning.
- The purpose of this Virginia Tech research study is to examine how adults process and learn information from mobile media.
- Study participation involves a one-time visit to the Cognitive Science Lab (CoDeS) Lab at Wallace Hall on Virginia Tech campus.
- In this study, you will:
 - Watch clips from TV shows
 - Wear a pair of eye-tracking glasses
 - Answer questions about the videos
 - Complete cognitive tasks
 - Complete a survey
- Sessions can be scheduled at your convenience. You will receive \$20 (about an hour). Participation is voluntary and confidential.

This study has received Virginia Tech IRB approval (19-800) and is part of the research projects under the direction of Drs. Koeun Choi, Benjamin D. Katz, Adrienne Holz Ivory, and Gota Morota at Virginia Tech. This project is supported by the Institute for Creativity, Arts, and Technology.

Interested in participating,
please scan the QR code above or
